

## ELECTRONIC GATE ENTRY AND GATE CODES

Each Villas resident should have their own individual four-digit Gate Code (#\_ \_ \_ \_) which enables entrance through the main gate at Brackenbury Way. This Gate Code assignment is determined by each individual resident. Please create a work order in AppFolio to establish their unique Gate Code.

Each resident may either furnish their guests with their Gate Code or have their guests scroll the kiosk and press the "Call" button for automatic entry. Using the "Call" button will in turn ring the resident's landline or cell phone and allow voice contact. By pressing the number "9" on the phone, the entry gate will automatically open allowing access to The Villas.

Each unit should have available two garage remote controls for the dual purpose of opening the main gate as well as each individual garage door. If additional remote controls are needed, please contact Overhead Door Corporation, 6756 Franklin Boulevard, Sacramento, California 95823, and phone (916) 421-3747. Ask for Shawn. These controls are called "Code Dodger" and currently sell for approximately \$40. Overhead Door in Sacramento is also available to service your garage doors and operators.

If you need assistance with your Gate Code or programming the remote controllers, please AMC Customer Service at (916) 565-8080 (Ext #198).
